Policy Committee

This strategic legislative agenda is prepared in advance of the Texas 88th Legislature convening on January 10, 2023. The purpose is to provide direction on policy issues affecting the diverse RHCA membership especially minority and woman-owned A/E/C businesses. Public Policy and legislative affairs play a large role in our service to our members. We believe in working with elected officials at the local, state, and federal levels on public and private industry issues. Additionally, this platform is applicable to various business areas such as infrastructure, education, hospitality, etc.
